RE: West Creek Conservancy
Intern Sponsorship Program

West Creek Conservancy is seeking resources to sponsor our 2017 Intern Program and we would like to invite you to join our team and help us provide pivotal workforce development skills for our incoming interns.

Term of interns:
- May-August 2017

Fields of Study:
- Environmental sciences/natural resources (engineering, geology, botany)
- Sustainability
- Business and marketing
- Non-profit/organizational management and development/event planning

Cost of Program
- WCC is looking to bring on 5 interns this season, for a total expected cost of $15,000
- All levels of support are vital; exclusivity of program support is available, but to discuss, please call Derek at 216-749-3720 etc 12 or email: dschafer@westcreek.org

West Creek interns are submerged in the day-to-day life of the organization, which integrates them into a vast array of projects and programs. Interns will be exposed to the following activities:
- Land acquisition/real-estate
- Land use planning, zoning/building/construction codes and policy
- Watershed policy and practices
- Stewardship and land maintenance
- Urban agriculture and native plant cultivation
- Field and stream assessments (QHEI, ORAM, VIBI, HHEI, BHEI, flora/fauna, ICI, plant indexes, etc)
- Event planning, fundraising, education-outreach, and volunteer coordination
- Grant and project research

Each of the above-mentioned activities builds upon their educational background, expands their field experience, and greatly develops their personal-professional network, prepping them for entering the workforce. All WCC Intern Sponsors will also be invited to a luncheon meet and greet with the interns at the end of the season!

I would like to Sponsor the Conservancy's Intern Program in the amount of $_____

Name/Company/Org Name	Street Address
Contact Name	City, State, ZIP
